

## CA-2000

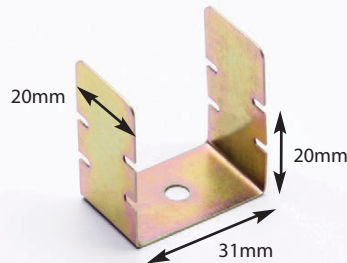

Pack of 100

### Small

23mm base for popular 2 cable combinations. (2x 2.5mm T&E, 2x 1.5mm FP Cables - up to 4 Cat5)

## CA-2001

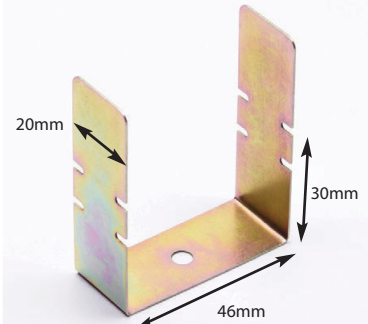

Pack of 50

### Medium

Can fit 32-40mm trunking bases folds to max 20mm height

## CA-2002

Pack of 50

### Large

Can fit up to 50mm trunking bases Folds to max 30mm height

- High-temperature rated FIREKlips can hold full-cable loads for 2 hours at 930°C (+40° -0°)
- All FIREKlips are fully tested as BS5839 part 1 compliant, as mentioned in section 26.2 sub category E
- 20mm wide side-tabs & pliable gauge combine for quickest and easiest folding
- FIREKlip prevents cable collapse in fire situations, and helps maintain clear exit routes with no danger of entanglement
- Fits 2-core 1.5mm Fire Performance Cable, with smooth, rounded edges which protect soft-skin cables
- 5mm diameter hole accepts all popular non-combustible fixings
- Ideal for ceiling voids or popular PVC trunkings 25mm – 50mm widths

The legislation within the new Wiring Regulation 521.11 calls for a method of fixing all cable categories running within escape routes such that they will not be liable to premature collapse in the event of fire. In Note 2, it states that 'a suitable fire-resistant means of support/retention must be provided'.
