

A812E Battery kit

The A812E Battery Backup Kit is designed to provide uninterrupted temporary power to compatible Scope communications equipment in the event of a mains power outage.

Installed directly inside supported AC-powered units, the A812E automatically activates when mains power is lost, helping to maintain network continuity and prevent communication disruption.

Compatible Equipment:

- PageTek4 AC transmitters
- DigiLink3 AC transmitters
- Connexions AC transmitters
- Rx10AC receivers

Key Features:

- Automatic emergency power activation during mains failure
- Internal fitment for clean and secure installation
- Maintains operation of critical paging and communication systems

Backup duration will vary depending on the connected equipment and operational duty cycle.

Each A812E kit includes:

- 1 x 12v 0.8 ah lead acid battery
- 1 x Battery Holding Clamp
- 2 x M3 Washers
- 2 x M3 Nuts

The A812E battery backup kit provides a simple and effective safeguard against unexpected mains power interruptions.

Specifications

Nominal Voltage: 12V

Battery Capacity: 800mAh

Product Type: Sealed Lead Acid Battery

Minimum Operating: Temperature -20°C

Maximum Operating: Temperature 60°C

Footprint:

Battery (L) 95 x (W)* 61 x (D) 25 mm

Bracket (L) 115 x (W) 15 x (D) 25 mm

[*excluding power lead]

Gross weight: 381g
